VOLUME ELEVEN.

STONY PLAIN, ALBERTA, THURSDAY, JULY 16, 1931

Whole Number 564

Where Peril Lies.

The "U. F. A."—The grave economic situation in the Western world is not due to a "Russian peril." It is due to our own defective social organisation. So long as Western peoples tolerate a condition in which hunger increases while food stocks accumulate and cannot be distributed, and millions of people go improperly clad while clothing factories lie idle, the peril will remain.

The responsibility lies with those who, having power over our financial and economic order, block the way to social reorganisation. And the fault lies also with ourselves because we permit them to do so.

If there is an avenue of escape, it is to be found in the establishment, by methods which are in accordance with our traditions, of an equitable social order.

Wheat Pool Convention

Alberta Wheat Pool delegates are meeting in Calgary this week, when the future policy of the organisation is being given careful consideration. At the conclusion of the meeting a definite announcement will be made as to the system to be followed by the Alberta Pool in the handling of 1931 crop.

The avalanche of publicity that has been circulated, describing and in many instances misrepresenting the Pool's position, has created confusion in the public mind as to the Pool's position. Pool members can be assured that the organisation is going to carry on under grower control. Changes in economic conditions as they affect wheat may necessitate a change in policy in handling members grain; but it is anticipated that a system will be worked out to meet the situation adequately and give co-operative activity a new impetus.

Exhibit Made by Alberta Women's Institutes.

This year, for the first time, the Provincial women's institute arranged for an interesting exhibit at the exhibition in Edmonton.

The splendid child welfare and public health exhibit prepared by the Provincial Dept. of Health last year and sent to the Toronto exhibition, is included.

The Agriculture & Industry Booth shows some of the goods now manufactured in Alberta, also a miniature model farm. Household economics is dealt with in adjoining booth.

Mrs W. C. Short, Convenor of the exhibit committee, was the hostess on Monday; Mrs A. H. Rogers was hostess on Tuesday.

Rural Schools' Competitions.

At the schools' competitions at the Beach last week the Barrie Shield was won by the Lucknow pupils; Cottage Lake 2d, Holborn 3d, Willingdon 4, Rosenthal 5, Warden 6th, Carvel and Comet tied.

The prizes for the highest points went to Wilt Facett, Norman Krye; Bertha Zahn, Martha Kulak and Lydia Eiders tied.

The first ball game was rather one side, as the score shows: Holborn 1, Brightbank 18. The second ball game resulted; Stony Intermediates 4, Rosenthal 8.

A slight protest was entered by those from the one-room schools to competing on an equality with the larger number of pupils from the two-room schools. This will probably be altered, so as to put a two roomer into two schools for competition purposes.

It is also probable the classification of the pupils themselves, for competitive purposes, will be changed to a classification by weight; the changes to come in force at the next sports meet.

Lessons Of The Depression

During periods of depression such as the world is at present experiencing the almost universal tendency is to look upon the gloomy side of things to the exclusion of everything that is hopeful and encouraging. As a result there has been a plethora of dire forebodings, headshakings, and pessimistic utterances, accompanied by an arid scarcity of optimism and hopefulness. People generally can see, and seeing things continually dwell upon, the darkness, the losses, everything that is bad in the present situation, but it is rare indeed, to discover any one who finds something good, or prophetic of future good, arising out of existing conditions.

Yet nothing is wholly bad and there may, and often does, develop out of the most adverse circumstances some of the best and finest things of life.

We have observed, for example, a larger sympathy on the part of the average person for their less fortunate fellow-citizens than has been noticeable for a long time. Fewer people are inclined to turn a deaf ear to stories of distress or to appeals for help. The stony out of work is not, as a rule, ruthlessly turned away but is received kindly and sympathetically even though it may not be possible to do much or anything for him. Thousands who have little to spare are nevertheless dividing that little with those who have nothing. There is, we believe, less hardness and more sympathy in our relations one with another as a result of an appreciation of existing conditions and problems. The development of such a feeling is so much gain.

It is also true, or at least we are inclined so to believe, that many people are beginning to realize the true inwardness of life,—that work, about which in times past they have been inclined to grumble and regard with distaste and as something they would like to avoid, is, after all, one of the greatest blessings conferred upon man by the all-wise Creator of the universe. Today employment, the opportunity to work, is regarded by nearly everybody as one of the greatest boons they can obtain. Idleness is not a luxury, is not to be desired; it is a heartbreak, a calamity. The impelling necessity to work has been found to be not a hard taskmaster, but a kindly benefactor. The hardest work of all is not to be able to work.

Another much needed lesson which some of us are learning is how puny mere man is after all. In days of prosperity and mighty mechanical achievement and progress, there was a growing inclination to regard ourselves as self-sufficient, as supermen, boastful and vain. And this individualistic self-sufficiency was reflected in national self-sufficiency. We could live unto ourselves alone, as least so we thought, order our own lives, and disregard the rest of the world. But we have discovered we are not supermen nor gods. The rains cease to fall, blighting winds blow and intense heat prevails, and mere man finds himself helpless. He can do nothing. His accumulated savings are soon eaten up. He is in distress, and his condition of distress reacts upon other people and nations thousands of miles away, just as their difficulties and losses react upon him. One suffers, all suffer. Mankind is a brotherhood, and there is one ruling Power over all. These are truths which cannot be denied or ignored.

Prodigy Finishes Up At Adding Machine

Brooklyn Boy Shumps After Unusually Brilliant Start

This is the time of year when the college graduate goes forth to conquer the world. And yet—William J. Sidis at the age of six months knew the alphabet. When he was but two years old he could read and write with ease, spell correctly and carry on an intelligent conversation. By the time he was four he had mastered four languages. At six years of age he completed an entire eight-year grammar school course in six months, and two years later he was graduated from the Brooklyn High School after completing the four-year course in half a year. Entering Harvard University at the age of 11, he was graduated with honors four years later. Sidis then took post-graduate work and became a teacher of mathematics. This boy wonder—says John Hix, in his *Strange As It Seems*—illustrations—was discovered five years later running an adding machine in a New York store.

An Accomplished Linguist

Lieut.-Gen. Sir W. Edmund Ross, who has just been appointed lieutenant of the Tower of London, can speak at least a dozen Oriental languages. He is six feet four inches tall, and was commander-in-chief of the Allied Forces in Archangelsk, Russia, in 1918-1919.

Could Not Check the Summer Complaint A Few Doses Did It

Mrs. R. Coulter, 918 1/2 Ave. E., Calgary, Alta., writes:—"Last summer my youngest son was very bad with summer complaint, and everything he ate would vomit, and he got so thin I became very much worried. I could not get the discharge checked, so I went to the drugstore and he gave me a bottle of Dr. Fowler's Extract of Wild Strawberry and told me it would stop the trouble if anything would. After I had given the boy the first few doses I noticed the discharge were being checked, and he was not long before he was well again."

Drought Decimates Ducks

Dry Year Takes Heavy Toll Of Young Broods

The death rate among young wild ducks in Saskatchewan this year, owing to the drought, has been extremely heavy, was the opinion expressed recently at a special meeting called between members of the Saskatchewan Fish and Game Protective Association, Arthur Etter, game guardian, of Saskatoon, and Dr. W. H. Bell, of the Bureau of Biological Survey, Washington, D.C.

The extreme seriousness of the situation could not be stressed too much, was the unanimous opinion, and the sportsmen want the shooting season greatly curtailed if the United States would do likewise.

Dr. Bell said he had come to Saskatchewan because of the alarming reports received by his department. The department had not been sure that the reports had not been exaggerated and had decided to investigate for itself. "And I can assure you," declared Dr. Bell, "the reports have not been exaggerated. Mr. Etter and I have just finished a 500-mile trip and have counted exactly 400 ducks and of this number only 24 were young ones. On one lake we counted 320 ducks and there were no young ones amongst them. We believe that the adult ducks' had gathered after their broods on a number of small sloughs had died owing to the drought."

Mr. Etter stressed that the trip had been a very thorough one from the duck investigation standpoint. "At every point touched very full inquiries had been made among sportsmen and farmers and they had declared that the death rate had been extremely heavy. It was doubtful if one per cent of the young duck population in a great portion of the province had survived the drought."

All Night With Asthma. Everyone knows how attacks of asthma often keep their victims awake the whole night long. Morning finds him wholly unfit for a day of business, and yet, business must still be carried through. All this night suffering and duck outest. The answer is the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

Canadian Mines Pay Dividends

Several British Columbia Companies Distribute Substantial Sums

All mines are not just holes in the ground in which suckers drop their money. Despite talk of hard times and low-priced metal markets, Canadian mines are still paying steady dividends.

Several British Columbia companies are to pay out their usual quarterly dividends. Some of them amount to quite substantial sums.

Pioneer Gold will pay out over \$25,000.

Premier Gold will pay out \$150,000.

Howe Sound (which operates the Britannia Mine) will pay out \$240,000.

Consolidated Mining and Smelting (which operates the Sullivan Mine and the Trail Smelter) will pay out \$630,000.

Sir Donald Mann tells us of declining to buy the Sullivan when it was offered to him by the original tow-headed Sullivan for \$12,000. Since then it has paid off of good luck when lead and zinc were high, when it made \$60,000 a day.

The day may not be very far distant, when the great pre-Cambrian shield which blankets northern Saskatchewan will be supporting big mines and paying out millions in quarterly dividends—*Regina Daily Star*.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Made Poor Guess

"The place will never amount to a hill of beans." This was the prediction of Sergeant Joseph Herbert 65 years ago to Winnipeg's future. He gave away his land to the Crown, granted him, and marched east with the Royal Canadian Rifles when that regiment was recalled to Halifax. Recently a son of the sergeant of Red River days visited the city. The parcel of land his father gave away is now the site of the City Hall.

W. N. U. 1988

Fastest Atlantic Crossing

Empress of Britain Sets New Record In Mercantile Marine of Any Country

Making the fastest trans-Atlantic crossing ever recorded by the mercantile marine of any country, the new 43,000 ton Canadian Pacific liner Empress of Britain at 3:15 a.m. Monday, June 22nd, recaptured the Blue Riband of the Atlantic for British shipping. Establishing a new world's record of four days, twelve hours and thirty minutes between Cherbourg and Father Point, mails were landed and the pilot taken on, in four hours and twenty-six minutes better time than the previous record of four days, seventeen hours and six minutes made between Cherbourg and Ambrose Light where pilots are taken aboard New York bound ships. The Canadian Pacific now holds the Blue Riband on both the Atlantic and the Pacific oceans, the Empress of Japan holding the record for the run from Vancouver to Yokohama.

B.C. Timber Resources

Industry Gives Steady Employment To 45,000 Men

Average annual revenue received by the Crown from forest sources in British Columbia during the past ten years, according to an official report, has been in excess of \$3,725,000; average value of materials produced has been more than \$50,000,000, and during this time the industry has given steady employment to about 45,000 men.

It is estimated that there are at present in British Columbia commercial stands of timber covering about 16,900,000 acres. Of the more important commercial species the amount of timber accessible for immediate future use is approximately as follows: Douglas Fir, 54,000,000, 000 board feet; Western Hemlock, 51,000,000,000 board feet; Western Red Cedar, 60,000,000,000 board feet; Spruce, 70,000,000,000 board feet.

Reduction In Colds

A ten per cent reduction in frequency of colds among a group of 14 Cornell women students is the latest record of using scientific knowledge. Seventy-five Cornell men taking the same treatment showed a reduction of 42 per cent. The cold protection is ultra-violet light, alkali, diet, ventilation and sleep.

Douglas' Egyptian Liniment always keeps aches and pains bleeding instantly. Counteracts wounds and prevents blood poisoning. Splendid for muscular rheumatism.

The reason so many people miss the road to happiness is because when they come to it it looks so much like a labour they take the better-looking side.

UNIVERSITY OF MANITOBA

WINNIPEG

Offers, among others, the following Courses:
Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A., and B.Sc. and M.Sc. (Ph.D.) and M.E.C.
Through its FACULTY OF ENGINEERING courses leading to the degrees of B.Sc. (E.), B.Sc. (E.M.), and B.Arch.
Through its FACULTY OF MEDICINE courses leading to the degree of M.D. and L.M.
Through its FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degrees of B.S.A. and B.Sc. (Dom. Sci.).
Through its MANITOBA LAW SCHOOL, an affiliated institution, a course leading to the degree of LL.B.
For terms of admission, details of courses and other information, apply to:
W. J. SPENCE, Registrar,
University of Manitoba, Winnipeg.

Decrease In Forest Fires

Decided Drop In Prince Albert District This Year

A decided drop in the number of forest fires in the district is very noticeable compared to last year. The number totals 60, spreading over a district including the Prince Albert area west to the Big River forest reserve and east to Nipawin. Last year at this time there were 69 fires in the Nisbet reserve alone.

A reason given for the present low average in fires is the rewards offered for information leading to the arrest and conviction of persons willfully starting fires. In addition to this, the campaign against forest fires is bringing good results, also the radio telegraph in operation enables the rangers to keep in touch with each other as to conditions.

The co-operation of the public is asked to enable the forestry officials to retain this high standard throughout the dry season when tourist traffic is general.

Internally and Externally It Is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many wind and ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

London Still In Lead

Population Exceeds New York By Over Million

London still is the world's largest city by a margin of more than a million inhabitants over New York. Metropolitan London, containing the "outer ring," which corresponds to that known as Greater New York, has a population of 8,202,818, preliminary summaries of the census taken April 26 indicate. The population of Greater New York in the last United States census was 6,981,917, or 1,220,901 less than its British rival.

Foods Stay Fresh Longer This Way

Fifty Per Cent. Of Cattle Hides In Canada Last Year Were Damaged By Warble Fly Grubs

Fully half of the 1,300,000 cattle hides taken off last year in Canada showed unmistakable evidence of damage by warble fly grubs and the value of the finished leather produced from these hides was reduced by at least \$700,000. The extent of the additional loss in reduced milk and beef production cannot be determined, but it is probably equal to, or greater than, the direct damage to hides and leather.

According to Dr. W. E. Graham, of the National Research Laboratories, Ottawa, who secured this information from Canadian packers and tanners in connection with the leather research programme on which he is engaged, 15 per cent of all hides taken off in 1930 had open grub holes. Damage is most serious during the first six months of the year,

over a dozen warble fly grubs are found annually in all the cattle. Because the warbles do not fly far they can be controlled locally in comparatively small areas, although it would be considered impossible for a single small farmer to act alone in such a matter.

Farmers are recommended to seek advice as to treatment from recognized authorities.

Dr. Graham's report concludes as follows: "Through buying hides in the fall to avoid open grub holes, tanners encounter considerable loss through interest charges on capital tied up for long periods, a loss which we cannot estimate.

The existence of grub holes in hides is, in addition to monetary losses involved, a potential source of

The holes in this piece of leather were caused by the Larva of the Warble Fly

39 holes in a piece of leather only 13 1/4 inches long.

When some tanners refuse to buy Canadian hides. In April and May, 1930, the percentage of hides that were "grubby" ran as high as 45 or 60 per cent. Dr. Graham states that more grubby hides are found on western range stock than on other cattle and that the percentage is 10 per cent greater on steers than on cows. One tanner gave his opinion that 95 per cent of Canadian hides showed the unsightly scars of present or previous infestations.

The warble fly grub, hatched out from eggs laid on the legs of cattle, work their way through the skin, thence to the gutlet and eventually out through the animal's back. They leave holes which gradually close but always result in a permanent scar which reduces the quality of the leather.

Hundreds of holes caused by grubs have been counted in a single hide. The area affected is limited to about 10 per cent of the hide, or 4 square feet, but is the best part for the production of leather. Samples of leather made from affected hides submitted to the Research Laboratories have the appearance of having been ridged by gun shot.

Losses from the warble fly have reached such proportions and remedial measures have been developed which are so satisfactory that the tanning industry through the National Research Council's Associate Committee on Leather has urged a concerted and determined effort at eradication. The Dominion Department of Agriculture is taking special action. Dr. Graham's estimate of losses incurred is being made available to this department and the other agencies concerned.

That the problem of eradication is by no means insuperable is indicated by the experience of Dean A. M. Shaw at the farm of the University of Saskatchewan at Saskatoon. For some years regular treatment has been applied, with the result that at present it is stated that probably not

SIMPLE AND LOVELY—YOUTHFUL

Here is a blouse you'll love. It's not alone flattering and youthful but thoroughly wearable.

A dotted crepe silk made the original in white ground with skipper blue nickel sized dots. It's a combination that fits into many color schemes. It's a type that may be worn with a suit or with a separate contrasting skirt or made as a complete frock worn with a matching skirt.

Net, eyelet batiste and lace are dainty suggestions.

Handkerchief linen, printed batiste, dotted swiss, pastel crepe silk and satin are ideally suited to this model.

Style No. 350 may be had in sizes 16, 18, 20, 22, 24, 26, 28, 30 and 32 inches bust.

The 35-inch size requires 2 yards of 39-inch material.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Will You Take Chance

People are getting more air-minded every day, or maybe it's the unemployment situation. Fearing that one would be on hand to leap from a balloon at the height of 1,000 feet, the Audubon Park Commission, New Orleans, advertised an offer of \$3 for every minute in the air. The advertisement was answered by 121 men.

Population Of Great Britain Largest Ever Recorded, But Birth Rate Is Much Lower

Praise For Livestock

From Saskatchewan

If Quality Maintained Will Command Highest Prices On British Markets

Excellent outlook for Saskatchewan's livestock exporting industry is seen in the tribute received by W. W. Waldron, markets commissioner of the province, from the Co-operative Wholesale Society of Great Britain.

"If Canada continues to produce and ship to England this quality, she need have no doubts as to satisfactory prices; even on low value markets they would command the highest prices available," the letter received by the commissioner states.

Conjecture is being voiced by Canadian cattle and livestock men as to the cause of the excellent run produced. Whether fortune entered the shipment and found Saskatchewan ready with a "good run" of stock or whether the available cheap feed has caused a liberality in feeding is a matter of concern.

A more strict interpretation by Saskatchewan livestock breeders of export cattle is looked upon by Commissioner Waldron as the likely cause for the general good quality stock shipped.

"The last shipment of cattle received per the S.S. Manchester City was about the best ever received from Canada and has done more good in two days than a whole year of past advertising or broadcasting could ever do, the quality being far superior to any Irish and equal to any Scotch," the letter relates. "The prices realized on the selected of this shipment were equal to our selected Norfolk cattle," it continued.

"Our markets will be favorable for another six weeks until the Irish grass fed cattle arrive, although even then your selected steers (young finished) will always be in good demand at top market prices," the letter concluded.

Farmers Must Fight Cutworms

Advised To Work Wood Patches and Leave Clean Land Alone

Cutworm losses in the areas affected this year will be heavier in 1932 unless exceptionally heavy rain-falls occur is the prediction of the Dominion laboratories at Lethbridge. At the same time the entomologists prophesy that areas lightly affected this year will suffer greater losses next year.

The department suggests that farmers set the worms to work clearing out Canada. That is, they should work patches by working those lands between July 25 and September 7, when the cutworm eggs are laid. Clean land should not be touched between those dates, the authorities state, as the worms work only in loose soils.

England has eight autogyros.

The biggest population ever recorded for Great Britain—and the lowest birth rate in the last 50 years—are features of the preliminary report of the registrar-general, dealing particularly with England and Wales, following the census of April 26 last.

The population of Great Britain on census day was 44,790,488. The population of England and Wales was 39,947,931, and of this figure there were 20,809,087 females to 19,138,844 males.

The total population rate—685 persons to the square mile—is higher than in any country recorded, with the probable exception of Belgium.

But the country now ranks lower than any other except Sweden in the birth rate. Births registered were 8,930,000, compared with 8,281,000 in the previous census.

"Despite the fact that the marriage rate has been well maintained, particularly at the younger age at which the bulk of births occur," says the report, "and despite the further fact the exceptional post-war spurt in the birth rate itself had only just passed its maximum at the beginning of the decade, the total births registered are 1,250,000 fewer than in the preceding period, which covered the war years, when the birth rate sank to levels never before recorded.

"The full significance of the fall will be but dimly appreciated for many years. As temporary satisfaction felt in the reduction of the number of unproductive mouths to be allied during the present period of economic stress must sooner or later be qualified by realization of the more profound social issues involved."

As a partial set-off against the decline in births the deaths registered were more than 500,000 fewer than in either of the two preceding ten-year periods.

Trade Emporium In China

Novel Building To Be Opened In Shanghai This Year

One of the most novel modern buildings in China is to be opened in Shanghai this year. It is a trade emporium being erected by the Continental Bank of Shanghai, and occupies an entire block on Nanking Road. The building will be seven stories high, and will have four elevators in different parts. There also will be accommodations for a modern hotel, restaurants, offices and shops. To enable automobiles to reach any part of the building a "Y" shaped lane will be constructed inside.

Works Both Ways

Idleness Is Bad For Sane As Well As Insane People

Idleness, says the physiologist, is bad for the insane. It is bad, too, we think, for the sane. Hard work may in some measure reclaim the insane or at least help them to justify their existence. But enforced idleness has a cruel trick of unhinging minds that brood too deeply on the cares of this world; and before we reclaim the maimed minds of our race we should see to it that those who are still whole shall be kept whole to the end.

Marble buildings and statues of ancient Greece were not the white objects that they are sometimes thought to be, but were painted in bright, soft colors.

Slam is developing its automobile roads through the jungles.

"I dream of you day and night, Miss Mimi." "Ah, that is why you are always so sleepy."—Lustige Koesler Zeitung, Cologne.

"CANADA SENT US THIS ORDER, BUY CANADIAN PRODUCE"

This interesting picture, just received from England, shows the latest campaign designed by the hard-working Empire Marketing Board to boost the products of the Dominions and Colonies in the British Isles. The photograph shows a number of huge packing cases on one of the station platforms in England containing a consignment of British steel for Canada. On the sides and tops of these cases are nailed boldly labels bearing the words "Made in Great Britain for Canada." Under these words are the Union Jack and the Canadian Ensign in color and the words "Canada sent us this order: buy Canadian produce." This message is intended by the Empire Marketing Board to convey to all who may see it, whether at the workshops before departure, or in the course of the journey to the ports, that Canada is buying goods from the Motherland and that the people in the British Isles should reciprocate. The new scheme is meeting with an encouraging response.

"How strangely they play." "Yes. They are exhibition dancers, and they practice while they play tennis."—Der Brummer, Berlin.

WOULD REDUCE EXPENDITURES ON NATIONAL LINES

Ottawa, Ont.—Reduction as far as possible in capital expenditures on present works and consideration of the suggestion of Sir Henry Thornton that an outside commission of leading Canadians be appointed to consider the entire question of Canadian transportation, are likely to be recommended by the special committee of the House of Commons on the Canadian National Railways report.

In parliamentary lobbies, it is also reported that the committee may suggest to the House of Commons the abandonment and sale of the Canadian Government Merchant Marine, the original cost of which was \$80,000,000 when purchased in the days of the Great War.

Another probability, it is understood, is a recommendation for considering the abandonment of the Canadian National steamship service between Vancouver, Seattle and Victoria.

Continuation of the West Indies service, combined with approval of a sum of \$755,000 for requirements respecting obligations under the treaty between the Dominion and the islands, will likely be proposed. The bill guaranteeing securities under the system's financing act of 1931, it is reported, will be approved by the committee. A sum of \$900,000 is required under the Maritime Freight Rates Act and approval of this sum is likely to be given.

It is understood the committee will consider recommending that the amounts Sir Henry Thornton receives in excess of \$75,000 per year salary should be published and that there should be no annuity of \$30,000 to Sir Henry after he leaves the system. Whether salaries of other officials may be made public is a matter upon which no information is available. Supporting statements of Dr. Peter McGibbon (Cons., Muskoka-Ontario) another recommendation may possibly be that club fees and club payments of high C.N.R. officials paid by the system amounting to a large sum should be made public.

The report has yet to receive final approval of the committee.

Looking For Advance In Disarmament Plans

Move Is Seen As Consequence Of War Debts Moratorium

Washington.—Definite advance in world disarmament is expected by the administration as one important consequence of the war debts moratorium.

With the holiday in intergovernmental payments definitely assured and steps already taken to adjust remaining details President Hoover and his advisors made the forthcoming general disarmament conference their next diplomatic objective. Three times in as many months the chief executive has linked the increasing costs of armies, navies and fortifications directly with the world's economic burdens.

The disarmament conference will be held at Geneva in February, 1932, under the auspices of the League of Nations. The United States will participate fully and officially.

Conservatives Hold Seat

Win By Election In Ontario Riding By 156 Majority

Simcoe, Ont.—An unofficial summary of results in the Norfolk provincial by-election showed the Conservative candidate A. C. Burt, elected by a majority of 156 votes over a Liberal opponent, with the third candidate, an Independent, losing his deposit.

Unrevealed final figures were: Dr. A. C. Burt, Conservative, 5,710; Eric W. Cross, Liberal, 5,554; A. C. Stewart, Independent, 272.

Both sides claimed victory before the complete and official figures could be checked.

In the last general elections, Ron John S. Martin, former member of the Ontario cabinet and a Conservative, had been elected with a majority of 1,403.

W. N. U. 1898

Approve Tariff Board

Term Of Office Is Fixed For A Period Of Ten Years

Ottawa, Ont.—After a rough passage and much buffeting, the government bill providing for the appointment of a tariff board finally passed the committee stage in the House of Commons. It now stands for third reading which, in the majority of cases, is merely a formality. It is possible that members of the Liberal opposition will seize the opportunity offered by the motion for third reading to voice briefly once again the many objections which they have developed. Discussion, however, must now be limited.

The bill, in brief, provides for the appointment of a board of three members, of which one is to be chairman, with the powers of a court of record. Its function, as indicated by the prime minister, will be to "find facts" upon which tariff duties may be based. It will endeavor to determine the cost of production of goods in foreign countries, the cost of producing similar commodities in Canada, and the rates of duties necessary to equalize costs. Its findings shall be reported to the Minister of Finance.

Salaries are placed at \$12,000 for the chairman and \$10,000 for each member of the board, and the term of office is fixed at ten years. In addition to its purely tariff activities, the board is empowered to perform certain functions under the Combines Investigation Act. It also assumes the duties now attaching to the board of customs.

Medals For Bravery

Four Young Brazilians Receive Recognition From Royal Canadian Humane Society

Hamilton, Ont.—Bronze medals "for bravery" have been awarded to four young men of Rio De Janeiro, Brazil, by the Royal Canadian Humane Society.

The four, cited for their heroism March 27, 1931, in rescuing three North American visitors from drowning at Copacabana Beach, are Archaldo Pinto Amando, Jorge Pinto Amando, Edilma Lima Coelho and Roberto Dolabella.

The rescue occurred at the beach when three members of the Canadian trade mission to Brazil, and a friend from the United States, went swimming there. They were carried out from shore by the heavy surf and the undertow, when the young Brazilians went to their assistance.

One of the men rescued, C. E. Marley, London, Ont., failed to respond to attempts at resuscitation, but the three others, Arthur W. White, London; Thomas H. Ramsey, Edmonton; and W. F. Routh, United States friend of the party, survived.

Must Keep Expenses Down

Germany Has Been Warned To Practice Rigid Economy

Berlin, Germany.—The German Government pledged its word that the money made available by the Hoover debt plan will be used solely for the purpose of bringing about consolidation of the nation's finances. "Whatever alleviation the credit and money market receives, must rebound to the benefit of Germany's business and economy," the government said in an official proclamation.

The nation was warned in the government statement that it must be unrelenting in its efforts to economize. No increase in the expenditures of any government department will be tolerated. President Paul von Hindenburg sent a message to President Hoover, telling of the gratitude of the German people.

Manitoba Butter Takes Grand Championship

Exhibit From Dauphin Dairy Wins First Place At Calgary

Winnipeg, Man.—An exhibit of Manitoba butter, which scored 193 out of a possible 200 points, triumphed at the Calgary Exhibition, taking the grand championship and gold medal in creamery classes, according to advices received here, Tuesday, July 7. The championship exhibit was entered by the Manitoba Co-Operative Dairies, of Dauphin. Saskatchewan Co-Operative Creameries, Moose Jaw, took second place, and Manitoba Co-Operative Dairies, Brandon, third.

PREMIER MACDONALD

Labor Government sustained when recalcitrant leftwingers who moved rejection of unemployment-insurance anomalies bill, were defeated by vote of 231 to 19.

National Relief Board

Social Service Council of Canada Will Urge Formation

Toronto, Ont.—Appointment at once of a small national board or committee, composed of the best informed and most capable persons available, to plan, co-ordinate, and direct unemployment relief measures, is urged by the Social Service Council of Canada in a memorandum of resolutions passed by that body, to be submitted to Premier R. B. Bennett and Hon. Gideon Robertson, Minister of Labor.

Rev. Canon C. W. Vernon, of Toronto, president of the council, and Dr. J. Phillips Jones, general secretary, expect to go to Ottawa shortly to present the resolutions to the government.

Trade Conditions In Britain Are Improving

Situation Better Than In States Says Sir Charles Gordon

Quebec, Que.—Noting an improvement generally in conditions in Great Britain, with a trade revival taking place, Sir Charles Gordon, president of the Bank of Montreal, has returned to Canada from a brief visit to Europe.

"I think that conditions in Great Britain are improving, trade generally experiencing a revival, and that conditions there aren't as bad as in the United States," said Sir Charles.

Anglo-American Relations

Toronto, Ont.—Delegations of university professors and students from Great Britain and Canada have accepted the invitation of the Carnegie Foundation to discuss Anglo-American relations with a similar group from United States colleges at the University of Michigan from July 12 to 19. Stanley Rand will represent the University of Alberta and James A. Gibson, University of British Columbia.

DADDY DOES THE TRICK

In all the millions that followed the progress of Wiley Post and Harold Gatty, who flew around the world in nine days, none were more intimately interested than the group presented above. Mrs. Harold Gatty, wife of the flier, with her children, Alan, five years old; Lindsay, three, and Ronald, who is nearly two. They were confident "Daddy" would get back home in "Winnie Mae" after the strenuous flight.

No Armaments

Germany Will Not Use Reparation Funds For War Purposes

Paris, France.—The German Government through Ambassador Von Hoersch, gave Premier Laval its solemn word that it would not use the funds realized by the reparations moratorium for building armaments. Ambassador Von Hoersch gave to the premier the text of Chancellor Bruening's statement of July 2, in which the chancellor assured the United States government that its moratorium benefits would be used for economic purposes.

After the interview, Premier Laval issued a statement in which he said that the German government made the move on its own initiative.

Paris began to prepare for the disarmament talks which it expects after the arrival here of United States Secretary of State Henry L. Stimson.

Had Easy Victory

Labor Government Triumphs Over Recalcitrant Leftwingers

London, England.—The government had an easy triumph in the House of Commons over recalcitrant leftwingers who moved the rejection of the unemployment insurance anomalies bill, which aims to remove some of the unsatisfactory features existing in unemployment insurance.

The left wing, led by James Maxton, objected that the bill was wholly inadequate, but after some hours debate they failed to convince the House and the rejection motion was defeated 231 to 19.

The minority included the followers of Sir Oswald Mosley, who moved from the Labor side of the House to the opposition side. The Conservatives did not vote and several Laborites and Liberals also abstained.

Reduce Insurance Rates

Reduction On Shipping Via Hudson Bay Route Is Reported

Regina, Sask.—The British hull committee has agreed to reduce insurance rates on shipping via the Hudson Bay route from 4 per cent to 3½ per cent on vessels valued at \$10 per ton, according to official word from London, received by the Saskatchewan government.

This reduction was made contingent upon the operation by the government of ice breakers and direction finding equipment.

The committee also agrees to extend the sailing limit to October 7 of each year for a 10 per cent increase on the above rates, and to October 15 for a 25 per cent increase on the same rates.

Goes Over To Opposition

London, England.—Oswald Mosley, one time known as the millionaire Socialist, has formally joined the opposition to the government, surrendering his seat on the Labor benches for one of the Conservative back benches.

TAKE STEPS TO ENSURE SEED FOR DRIED-OUT AREAS

Ottawa, Ont.—The government has for some time had under consideration steps to ensure that the areas in the west facing short crops would not be denuded of the grain already in store there. The Saskatchewan wheat pool delegates in Regina decided to urge the government to purchase and retain all grain in the dried out areas until the feed and seed requirements can be assured.

There need be no fear in this regard, Hon. Robert Weir, Minister of Agriculture, said in an interview recently. The areas referred to would be protected as to the removal of grain. The government had been giving the situation close consideration for some time.

Plan To Organize

Best Way To Help the Unemployed

Ottawa, Ont.—The proposal to deal with unemployment by organizing labor battalions is being much discussed among members of the House of Commons.

The idea was suggested last week made some time ago by Gen. A. E. Ross, Conservative member for Kingston. Several similar suggestions have since been made.

It was proposed to have the battalions work on the road construction, tree planting, and other useful undertakings. The suggestion of Gen. Ross was that the battalions would be commanded by officers who were not members of the permanent militia force.

Labor members will likely be ready to support the scheme, but are understood to be strongly opposed to such battalions being under the Department of National Defence. They should be under the Public Works Department or the Labor Department, they contend.

Sympathy From Britain

Expression Of Regret On Partial Crop Failure Heard In British House Of Commons

London, England.—"I am sure the House will greatly regret to hear the present drought is expected to have a very serious effect on crop prospects in the prairie provinces of Canada," said Rt. Hon. J. H. Thomas, secretary for the Dominions, referring in the House of Commons to the causes and probable economic effects of the failure of a large portion of the Canadian wheat crop. "As to the position generally I can only refer to the statement made by the Prime Minister of Canada on July 1," Mr. Thomas continued. "The Prime Minister's review in the House of Commons of the serious situation confronting the people of a large section of Saskatchewan and of smaller sections of Alberta and Manitoba, which he announced the Dominion government would take measures for relief."

Communists Are Stirred

Say Deportations From Canada Will Not Cure Unrest

Winnipeg, Man.—Stirred by reports from Ottawa that Communists would be deported from Canada, leaders of the party in Winnipeg, declared such deportations would not cure the present unrest. Several believed it would stir up further trouble and aid in the spread of Communistic doctrines.

W. N. Koliayuk, former alderman, and a leader of the Communists in Winnipeg who has been resident here for 13 years, declared he would "welcome deportation." Many workers, he added, would also welcome deportation, especially to the Soviet Union, where there is no unemployment.

Trade Treaty Delayed

Ottawa, Ont.—The new Canada-Australia trade agreement bearing the signatures of Australian representatives, has not yet reached Ottawa. At the request of the Australian government, arrangements have been made for simultaneous release in Canada and Australia.

The Ones You Can't Trust.

Wampole's Grape Salts have been highly recommended by the leading medical authorities of all the leading hospitals, clinics, and private practice. It is a safe and reliable remedy for all the above conditions and for all the ailments of the system. It is a safe and reliable remedy for all the ailments of the system. It is a safe and reliable remedy for all the ailments of the system.

Price 75c. For Sale by J. F. CLARKE, Stony Plain.

Stony Plain and District

The regular Wednesday half holiday in the Town of Stony Plain has commenced, and will continue thru June, July and August, when all places of business close at one p.m.

The motor party Mr J F Clarke took up to Jasper returned to Stony Plain on Sunday evening, after a very enjoyable trip.

Mrs J Clinton McElree, Mr Ross and Mr Willard McElree, who had been the guests of Mr and Mrs J F Clarke, left today for their home in St. Louis.

Miss E Wolfe has returned from Alliance, where she visited with her cousin, Mrs L L Talbot.

Sports Day at Stony, next Wednesday.

Miss Velma Chase has gone to Pigeon Lake.

Mr Hilding Larson returned to town on Saturday, after a vacation spent in Edmonton and points East.

Mr S C Elliot, Wembley, was a visitor to Stony on Monday, returning from a motor trip to Banff.

Rev John Eichenlaub conducted the Lutheran service in Stony Plain on Sunday morning last. This prominent young preacher was a former resident of the town.

Monday being a free day for children at the Edmonton Ex, Stony schools were well represented there on that day.

A meeting of townspeople interested in sports held a meeting in the town hall on Thursday evening, when it was decided to hold a big Sports day in Stony Wednesday July 22d.

A Baby Clinic will be held in the town hall on Thursday, July 23rd, by the nursing branch of the Provincial Department of Health.

Mr Gus Barth, A.T.C.M., will resume his classes in music on Aug. 1. See him now, for further information.

Sports Day at Stony, next Wednesday.

Glory Hills school trustees are advertising for a teacher with a first-class certificate.

Duffield ball players engage Stony Intermediate on the local diamond tonight at 7.30.

Mr E H Pidgeon has leased the servicing department of his garage, but still retains the agencies for McLaughlin-Buick and Pontiac cars.

Sports Day at Stony, next Wednesday.

M M Mecklenburg the Optician and eye specialist, will be in Stony Plain Monday, Aug. 3d. See him, and see good.

Appreciated.

Here is a minister who appreciates the Editor. At the recent convention he offered the following toast: "To save the Editor from starvation, take his paper and pay for it promptly." To save him from bankruptcy, advertise liberally in his paper. To save him from despair, send him every item of news of which you can get hold. To save him from profanity, write your correspondence plainly on one side of the sheet. To save him from mistakes, bury him; dead men are the only ones who never make mistakes."

Grove's Ball Team "Wins."

The Spruce Grove Intermediate ball team, motored to the Graminia picnic on Friday last, having entered the baseball tournament there, the first prize being \$3. After a successful win by a score of 19 runs to 5, on a cow pasture diamond, the Grove's ball players were asked by the committee down to lunch; later finding out that the price of the lunch was deducted from the prize money of \$3, leaving a balance of 50 cents to the treasurer of the Spruce Grove club.

Groves Defeat Winterburns

Spruce Grove's Intermediate team played the regular schedule game with Winterburn on the latter's diamond Sunday afternoon. The first part of the game was notable for the way the batters went down, 123 out. Among the other noticeable features of the game, was Clarence Brox's three-bagger hit in the ninth inning, which brought in two runs, winning the game for his team. Score: Grove 10, Winter 8. Batteries: Grove, Don Martin & Walter Brox; Winterburn, Moore and Don Bevington.

Missionfest at St. Matthew's.

A record number of visitors was present on Sunday afternoon at the Missionfest held on the grounds of the St. Matthew church (Manitoba Synod). Rev G Poetzsch, pastor, Adam Appel's band, from Golden Spike, was present, and played a number of appropriate airs.

Spruce Grove News.

Mr Jac Brox motored in a load of young people to the Edmonton Ex on Monday.

Messrs Forbes and Coffeeberg made a fishing trip out west on Saturday.

Mr Gomas Groat has secured a position on the Wakaw Indian Reserve, and has moved to the Winterburn district.

The Grove's baseball teams intend participating in the games on Sports Day up at Stony Plain, next Wednesday the 22d.

Mr Dan Brox is on the reception committee at the Old Timers' Cabin at the Edm. Ex. this week.

The sale and tea held here on Saturday in aid of St Joseph's church was quite a success, the tables being well patronised.

T. J. Hardwick, Agent Stony Plain.

Here and There

The zoo at Toledo, Ohio, has secured a mammoth sturgeon captured in Lake St. Clair, Canada. The fish weighed 223 pounds and was sold to Toledo for \$100.

Feeding bees on sugar and milk at the Government Experimental Farm at Agassiz, B.C., has resulted in an average of 25 pounds more honey than on ordinary diet. This may mean a further impetus to Canadian honey production.

Capital amounting to \$900,000,000 is invested in the development of 13,000,000 horse power electrical energy in the province of Quebec. Throughout Canada electric power development investments total \$1,400,000,000.

East and west of Suez as also in London, Berlin, Paris and other famous centres canned and frozen salmon from British Columbia was successfully marketed last year. Most of the shipments went from Victoria.

Monday, August 10, has been officially set as the opening date of the fourth "Buyers' Week" to be held in Montreal. The first Buyers' Week brought 251 buyers from all over the continent to Montreal; the third brought 1,100 buyers, indicating the growing success of the plan.

Individual holders of Canadian Pacific Railway common stock numbered \$1.18 on September 2, 1930, and by the 1st June, 1931, there were 34,572 holders, an increase of 12,456. This shows the growing popularity of this stock since its split into four new shares for one of the old stock.

Unity of all peoples who live on the shores of the Pacific was the object behind the recent visit to British Columbia and Alaska of the Portland, Ore. Chamber of Commerce who took a seven-day cruise on board Canadian Pacific steamer Princess Charlotte in northern waters.

Completing a coast-to-coast holiday trip, Viscount Duncannon, son of Canada's Governor-General, the Earl of Dunsborough, and his cousin, the Hon. Arthur Pennoyer, arrived in Vancouver over Canadian Pacific Lines from the east recently. They went on to a six-day trip of British Columbia waters aboard S.S. Princess Maquima.

Ladies evidently also prefer blondes, judging by the decision of the Alpha Delta Pi sorority who elected Miss Margaret Jensen, blonde beauty of Hunter College, New York, as the sisterhood's most beautiful bathing girl at the convention recently held at the Chateau Lake Louise, in the heart of the Canadian Rockies.

Effective July 1, the Toronto Terminal division of the Canadian Pacific Railway was merged with the Bruce division of the company, the combined divisions being known as the Bruce division. R. W. Scott was appointed superintendent with headquarters at Toronto.

Visiting the Canadian Rockies for the second time in forty years, Colonel R. Stanley, of Alverstoke, England, said he was astounded at the progress and development attained in that comparatively short period. He was a guest at the Banff Springs Hotel, which was not even thought of when he was here as a guest of Lord Minto Stephen. (7-2)

Conservative Party Wants a Summer Session.

Calling of a special summer session of the Alberta Legislature in view of recent developments in the Wheat Pool situation and the possibility of the Province becoming further involved, will be demanded by the Alberta Conservative party, which held a conference in Calgary on Friday last. Other emergent problems, they claim, demanding the immediate attention of the Government are the creation of adequate machinery for the care of unemployed and the necessity for relief to farmers in some sections of the Province. D M Duggan, provincial Conservative leader, was present.

Mr. Mayer Buried.

The funeral took place on
Saturday, July 11th, of T H
Mayer, who had passed away
early on Friday morning of
bronchial pneumonia, at the
residence of Mr Albert Wurtz.
Deceased had been an old-
time resident of the Spruce
Grove district, but recently
had been in the employ of Mr
Schmidke, a Brightbank far-
mer. He had moved in to
Stony Plain for treatment,
about two weeks ago. Inter-
ment took place at Spruce
Grove cemetery.

United Canadian Shows.

The All Canada Show held
a one-day stand here on Sat-
urday, and was generously
supported by those in the
district. So far as could be
judged, the exhibit in each
tent lived up to the more
than life-size oil paintings in
front. When time was called
for the boxers to enter the
ring Champion Jack O'Brien's
challenge to anyone staying
with him in the ring for a
dollar a minute was taken up
by Art the Dane, a local
butcher. Art stayed 3 rounds
and received \$3.

Duffield Doings.

There seems to be a doubt
in the minds of some as to
the intent of the Executive
of the Intermediate Baseball
League, when they barred
from playing six members of
the teams. The reason given
for the action was, the mem-
bers designated were also
playing for teams outside the
League. When these players
withdrew from the outside
teams it was understood by
some that they would be rein-
stated in the League teams.
This did not prove to be the
case in the game Duffield
played last week at Winter-
burn, as Duffield played Lans-
man, and the game has been
protested.

In the game last week at
Winterburn, Duffield won by
10 runs to 8.

The Stony Plain ball team
will play the Duffield ball
team here today (Thursday).

Re-visits Stony Plain.

A agent dropped off the
early morning train from the
West on Saturday who ex-
pressed himself as being
greatly surprised at the ad-
vance Stony had made since
his last visit here.

The party in question was
Mr W Baddeley, of Vancou-
ver, B. C., who hadn't seen
this town since the summer
of 1910, when he was here
with a traveling show.

On the occasion of his last
visit Stony Plain did not pre-
sent the pretentious appear-
ance it does now, as the town
at that time was in the mak-
ing; a noticeable feature being
the rush and bustle incidental
to the boom days and to the
presence here of the trail
freighters and gangs of rail-
road workers.

Mr Baddeley was here, this
time, with United Canadian
Shows, which he had brought
here by east stages from the
Coast. On leaving here, the
company is billed to visit the
principal towns in the Peace
River country; and then will
double back to the Coast
over the Prince Rupert route.

Malloch—Want.

The wedding of Miss Joyce
Want, only daughter of Mr
and Mrs F M Want, of Ed-
monton, to Dr J G Malloch,
son of Mr and Mrs James
Malloch, of Stony Plain, took
place at All Saints Cathedral,
Edmonton, on Tuesday, July
14th. Following a reception at
the Macdonald Hotel. Dr
and Mrs Malloch left by car
for the Coast.

Schlitt—Coates.

The marriage took place on
Thurs., July 9th, of Miss
Pearl Gwendolyn (daughter
of Mr and Mrs J H Coates of
Rose Valley) to Mr John
Schlitt of Stony Plain. In the
evening a merry bunch of vil-
lagers serenaded the happy
couple, when the bridegroom
"came thru" in a handsome
manner, to the request of the
captain.

Dodds—Miller.

At St Matthew's Church
(Missouri Synod) on Sunday,
July 12 Miss Emelia Miller
(daughter of Mr and Mrs P
Miller) was united in the
holy bonds of matrimony to
Mr Dodds of Vancouver, B.C.
The ceremony was performed
by Rev H J Boettger, pastor of
Grace Lutheran church,
Edmonton.

English as She's Wrote.

DEAR MAC: Justa put a
little peace in yr. paper to
say our town shouldn't oughta
let dem sircns peoples to come
here and take all the money
outta the town. I hoks them
over on Saturday, and I says
we're a lrttt suckers to let
em come here and take all
the dough. I hope the town
council will have sents enough
to keep all the circuses away
as these fellows always bring
their own eats and hot dogs.
Please to print this free, and
oblig yrs. H D J.

Church Services.

Services in St. Philip's Church
next Sunday, 10.00 a.m.

United Church service every
Sunday Evg at 7.30.

On Sunday, July 19, English
Lutheran services at St Matthew
Schoolhouse at 7.30 p.m., by Rev.
H. Kuring.

Mike Says:

One of my greatest convictions:
"I made the effort."
Get rid of the wishing habit,
and replace it with the habit of
decision and action.

Heard at the Golf Cou rse.

Bill Dubb, at the 3d hole on the
golf course, observed two small
boys watching him and remarked:
"You boys will never learn to
play golf by watching me."
Small Boys—"We ain't interest-
ed in golf, mister. We're going
fishing as soon as you dig up some
more worms."

Composing Room Errors

"Touches live wife, hurried 35
feet."

"For Sale—A folding bed by a
lady that shuts up and looks like
a bookcase."

"To Exchange—Mahogany sec-
retaire by a lady with piano
legs."

"The ladies of this church have
cast off clothing of all kinds.
They may be seen in the basement
of the church any afternoon this
week."—Ransom (Kansas) News.
